SUMMARY:

Frontend Developer skilled in React.js, JavaScript, TypeScript, and CSS libraries (Material UI, Ant Design). Proficient in Webflow for effective web design.

Primary Skill Set -

React Js | Redux Toolkit | JavaScript | TypeScript | HTML | CSS | Material UI | Ant Design

Other tools & Technologies -

Webflow | Postman

WORK EXPERIENCE:

Member of Technical Staff

Innokit Systems LLC.

Sep2023 - Present

- Currently working on a web application for Human Resource Management and responsible for Frontend changes.
- Designed and developed many screens and interfaces using React, Material Ui.
- Also Handle any new Rest Api integration in the app for data exchange between front-end and back-end systems.
- Confirmed a user friendly and Responsive design for the end users.

Project :- HRMS.

PROJECTS:

Human Resource Management System (HRMS)

- This is my first project in innokit, for which I have learned a React component library called Material Ui.
- I work as a frontend developer in this project under a mentor.

Tech stack:- React,Typescript, Material Ui

Wetherly (Weather App) [Demo](#)

- This was my personal project , for which I have created an Application using ReactJs and OpenWeather Api .
- Obviously I learned about these technologies on different platforms before starting to build one.
- Created this Application from scratch and also made it responsive for different screen sizes.

Tech stack:- React js, CSS3 , GeoCity Api , Weather Api
