SUMMARY:

Frontend Developer skilled in React.js, JavaScript, TypeScript, and CSS libraries (Material UI, Ant Design). Proficient in Webflow for effective web design.

Primary Skill Set:

React Js | Redux Toolkit | JavaScript | TypeScript | HTML | CSS | Material UI | Ant Design

Other tools & technologies:

Webflow and PostMan

WORK EXPERIENCE:

Member of Technical Staff

Innokit Systems LLC.

Sep2023 - Present

- I am currently working on a web application for Human Resource Management and am responsible for frontend development.
- I designed and developed many screens and interfaces using React and Material Ui.
- Also handle any new Rest API integration in the app for data exchange between front-end and back-end systems.
- Confirmed a user friendly and responsive design for end users.

Project :- HRMS.

PROJECTS:

Human Resource Management System (HRMS)

- This is my first project in Innokit, for which I have learned about a React component library called Material Ui.
- I work as a frontend developer on this project under a mentor.

Tech stack:- React,Typescript, Material UI

Wetherly (Weather App) **Demo**

- This was my personal project, for which I created an application using ReactJs and OpenWeather API.
- Obviously, I learned about these technologies on different platforms before starting to build one.
- I created this application from scratch and also made it responsive for different screen sizes.

Tech stack:- ReactJS, CSS3, GeoCityAPI, and WeatherAPI

Education:

B.Tech (Computer Science and Engineering) Nitra Technical Campus, Aktu	2020-2024
12th (PCM) Bhagirath Public School, CBSE	2020-2024
10th Bhagirath Public School, CBSE	2020-2024
